We are happy to introduce **SmartCard** to the Virginia Mansion owners and residents

Enclosed you will find **(1) SmartCard**, there isn't any money on this card.

The **card machine** is located in the mailroom. You can **add money** to your card, **read your balance off your card** or if needed **purchase a new card**.

This is how it works

To add money to your existing SmartCard, insert your card into the top slot on the SmartCard machine. You can insert \$1, \$5, \$10 or \$ 20 into the money acceptor and your money will electronically transfer to your card. Please remove your card.

To purchase a card, push the "Buy Card" button, and then insert \$5 into the money acceptor. Your card will appear out of the "CARD DISPENSER" slot. You can then add money to this card (there isn't any money on this card)

You are now ready to wash and dry your clothes

Insert your SmartCard into a washer or dryer.

The display on the washer or dryer will indicate how much money you have on your card, after selecting a cycle it will deduct the cost of the washer or dryer.

The cost of one cycle for the **single load washer** is **\$1.30 for Cold water**,
\$1.40 for Warm and **\$1.50 for Hot**.

The **large double load washer (located on Terrace floor)** is **\$2.40 for hot water**,
\$2.20 for warm and **\$2.00 for cold**

The **cost of one cycle for the dryer** is **\$1.25 for any heated cycle** .

SmartCards are reusable, when the amount of money gets low on your card, just return to the card machine in the mailroom and follow the instruction to add money to your card.

Please remember treat your card like cash, if you loose or damage your card you will loose any money you have on the card, and have to purchase new one.
